

Assessment:
Infra Provisioned - ACR, AKS using terraform pipeline (trunk based strategy)
ACR to AKS attachment / Image pull Secrets
Database setup and manual data ingestion
Python manifest files and Dockerfile - deployment.yaml, service.yaml and ingress.yaml
Helm Chart - dev-values.yaml and prod-values.yaml
UI manifest files - deployment.yaml, service.yaml and ingress.yaml
Helm Chart - dev-values.yaml and prod-values.yaml
Push to Azure Repo
Git Flow branching strategy for application
Cretate pipeline using Azure DevOps with SAST and other devsecops tools
Deploy to Dev Stage
Manual Approval
Deploy to Prod Stage

Problems:
manifest out of sync
kubernetes credential expose

Implementation phase
Argo CD Setup
ArgoCD to Github Connectivity

Kaha chalaenge - Kuberenetes?

Home Work
ARGOCD Production Setup
ArgoCD helm ke through deployment krna hai
Multi Environment setup krna hai..
