

Deployment of Axion Systems

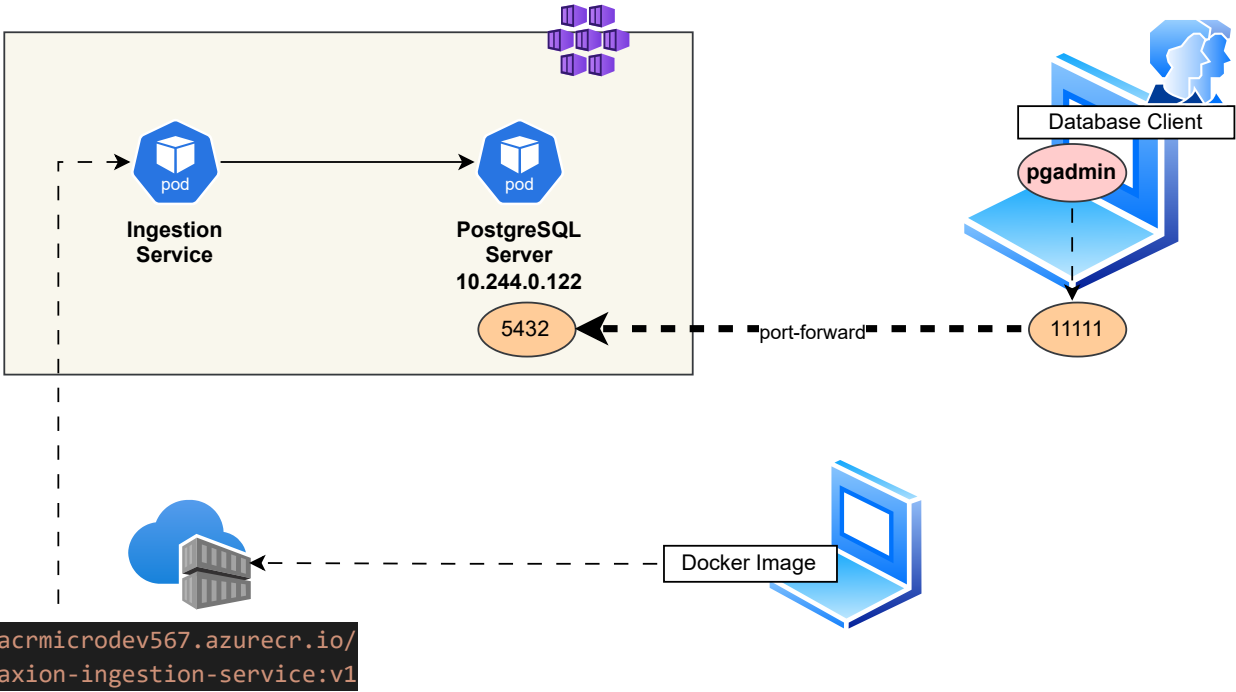

Dashboarding Application for Temperature, RPM for Rotating Components

Poore Setup ka Infra..
Data Lana
Ek database ka pod using deployment.yaml
Database ne ghus ke schema design using SQL Queries
Pgadmin ko use krke postgres se connect krenge
Deployment of pgadmin pod
Using Firefox -> Portforward -> Pgadmin -> PostgreSQL database
Run SQL Query to create Table/Schema
Ingestion Service ka Image and push to deployment.yaml

- AKS cluster
- Node Pool
- Node
- Pod
- Container
- Image

How ingestion service can be used to send data to database?
